

# Dedication

I dedicate this issue to Dr Anthony Fauci, who despite his long, dedicated, distinguished, and selfless public service as Director of the National Institute of Allergy and Infectious Diseases and Chief Medical Advisor to the President, has been subjected to public vilification because of his advocating public vaccination for the COVID-19 pandemic, an endorsement which has been proven to have saved millions of American lives. I am pleased to offer this dedication to celebrate his official retirement from the National Institutes of Health.<sup>1</sup>

Mitchell S. Cappell, MD, PhD  
Gastroenterology Service
